

## **FranWorks Group of Companies Takes Ownership of Elephant & Castle Pubs**

*Calgary-based franchise corporation acquires popular North American brand*

**Calgary, Alberta (February 6, 2012)** –FranWorks Group of Companies (FranWorks), owner of the 47 unit Original Joe’s Restaurant and Bar brand, has added a well-known group of pubs to its established roster of restaurants. FranWorks announced today that they have closed a \$22.75 million acquisition of Boston-based Elephant & Castle Group (E & C).

“Elephant and Castle has been in the industry for more than 30 years and has a great reputation among its customers,” said Derek Doke, Founder and CEO of FranWorks. “We look forward to applying our expertise to continue to establish their long-standing brand. This acquisition also serves as platform for further growth of our restaurant brands into Eastern Canada and the U.S.”

The authentic English pub concept first opened doors in Vancouver in 1977 and combines British classics with North American favourites. Today, E & C has 19 establishments across Canada and the United States with system wide sales of over \$50 million USD, all of which will now fall under the control of FranWorks.

Doke says FranWorks has no current plans to alter any of the existing E & C locations.
